

Practical Technology Solutions for Public Sector Missions

About Us

Renewal Global Exchange, LLC is a small disadvantaged, minority-owned business providing integrated IT services, technology solutions, and hardware procurement support to government agencies and mission-driven organizations. We support customers across the full technology lifecycle—combining systems engineering, cybersecurity, program support, and compliant hardware sourcing to help agencies modernize operations and execute mission-critical initiatives.

Our leadership team brings more than 17 years of experience supporting federal, state, and commercial clients in highly regulated environments. Renewal Global Exchange operates with FAR-aligned processes, disciplined quality controls, and secure documentation workflows, enabling us to perform effectively as both a prime contractor and subcontractor while delivering reliable, low-risk outcomes for our government partners.

Capabilities

Program & Acquisition Support

- Program and project management across the acquisition lifecycle
- Acquisition engineering, compliance, and logistics support
- Procurement planning and technology program strategy

Engineering & Systems Integration

- Systems integration and enterprise technical architecture
- Hardware, network, and infrastructure engineering
- ERP and enterprise application integration and modernization

Software, Applications & Enterprise Systems

- Enterprise application development, integration, and sustainment
- SAP BASIS administration and ABAP development
- Database, Unix, and platform administration

IT Operations & Infrastructure Services

- IT infrastructure operations and facilities management
- Data processing, hosting, and application management
- Systems monitoring, sustainment, and operational support

Business Analysis & Management Consulting

- Business and technical analysis and assessments
- Management consulting and analytical support
- Business process management and continuous improvement

Requirements, Planning & Governance

- Requirements definition and concept development
- Technology planning and governance support
- Documentation, reporting, and oversight

- State and Local

Our Differentiators

Lifecycle IT + Hardware Delivery

We combine IT services, systems support, and compliant hardware procurement under a single vendor, reducing coordination risk and simplifying acquisition for government customers.

Built for Regulated Environments

Our team has hands-on experience supporting federal, healthcare, financial, and security-driven systems, operating with disciplined processes aligned to FAR requirements and compliance-driven delivery.

Prime-Ready, Teaming-Friendly

Renewal Global Exchange is structured to perform effectively as both a prime and subcontractor, with mature acquisition planning, proposal workflows, and quality controls that support seamless teaming and execution.

Technical Leadership with Contracting Fluency

We bridge the gap between technical delivery and acquisition execution—bringing practical experience in IT engineering, cybersecurity, testing, and government contracting requirements.
